Wattwise Solutions LLC

Odor and pollutant gas monitor

WW-AIR-103

A sensor-based system for continuous observation of odor-related compounds and air pollutants. Configurable gas sensors, pump sampling and sample conditioning support deployment at industrial boundaries. The enclosure can be mounted on a wall or pole, with optional meteorological measurements to assist investigation of pollution sources.

Applications

• Industrial park boundaries

• Petrochemical sites

• Sensitive receptor locations

Technical data

Measured parameters	NH3, H2S, C6H6, CH3SH, CS2
Interface	RS485 / RS232 / 4G
Power supply	220 VAC
Operating temperature	−20–50 °C
Protection rating	IP55
Weight	15 kg

Specifications vary with model and configuration. Contact Wattwise to confirm suitability, measurement ranges and available options for your project.
Manufacturer: Sheens
