Wattwise Solutions LLC

Portable gas calibrator

WW-CMP-111

A portable gas dilution instrument using mass flow control and fluid mixing. It regulates the flows of reference gas and zero gas to produce a range of diluted concentrations. The system supports preparation of calibration gas mixtures for configured analytical and environmental monitoring applications.

Applications

- Gas analyzer calibration
- Environmental monitoring
- Reference gas dilution

Technical data

Measurement method	MFC
Measurement range	0–5 SLM
Accuracy	≤1% FS
Power supply	220 VAC / 50 Hz
Operating temperature	5–40 °C

Specifications vary with model and configuration. Contact Wattwise to confirm suitability, measurement ranges and available options for your project.
Manufacturer: Sheens
