Wattwise Solutions LLC

Fixed Gas Detector Series

WW-IND-006 / WW-IND-007 / WW-IND-008

Fixed point detectors for flammable and toxic gases around gas plants and pipelines. The family offers different sensor technologies for specific target gases, with local indication and visual or audible alarms. Analog and digital communication options support connection to a site gas detection system.

Applications

• Gas plant monitoring

• Pipeline leak detection

• Fixed point gas alarms

Technical data

Interface	4–20 mA; RS485; HART
Power supply	10–30 V DC
Protection rating	IP66

Specifications vary with model and configuration. Contact Wattwise to confirm suitability, measurement ranges and available options for your project.
