Wattwise Solutions LLC

Online pH sensors

WW-WAT-110 / WW-WAT-111

Glass-electrode pH sensors with built-in temperature measurement and automatic temperature compensation. Standard and compact probe formats are available for different installations. A corrosion-resistant housing supports submerged operation, and the RS485 Modbus interface provides a straightforward connection to water quality controllers and data acquisition systems.

Applications

• Surface water

• Wastewater treatment

• Industrial process water

Technical data

Measurement range	0–14 pH
Response time	<10 s
Interface	RS485 / Modbus
Power supply	9–36 VDC
Operating temperature	0–50 °C
Protection rating	IP68

Specifications vary with model and configuration. Contact Wattwise to confirm suitability, measurement ranges and available options for your project.
